

Michael Thane is the Director of the Utilities and Environmental Services Department for the City of Round Rock. He began his career with the City as an Engineer in 2001 and began serving as the Director of Utilities in 2006. Prior to joining the City, Michael had ten years of diverse experience in the engineering and environmental consulting industry. He first served on the Texas Municipal Utilities Association (TMUA) Board as a Regional Director in 2010 and in 2017 served as President. He is currently serving on the Advisory Board for the Texas Engineering Extension Service and is a board member for the Texas Municipal League. Michael manages a department consisting of 160 employees with an operating budget of over \$55 million and provides water for approximately 165,000 citizens. Michael obtained his Bachelor of Science in Environmental Engineering in 1991 from Texas A&M University and is a registered Professional Engineer in the state of Texas.
